-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 23 August 2006.
2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-4 are rejected under 35 U.S.C. 103(a) as being unpatentable over Winn, Jr. (4,048,884) in view of Miller et al. (4,088,899). Winn, Jr. discloses the invention including a fiber cutter (18) having a handle pivoted to the fiber cutter to cut fiber (30), a motor (50 and Column 3 lines 23-28) provided with a shaft capable of rising to operate the cutter by effectuating a cutting movement of the handle (52), a control unit (54), the motor being controlled by the control unit to start the cutting movement in response to a start signal (Column 4 lines 36-60), and the motor is a linear motor (50 and Column 3 lines 23-28).

However, Winn, Jr. fails to disclose an acoustic microphone connected to the control unit that is capable of detecting snap-off of the work piece and in response, causes the control unit to generate a stop signal.

Miller et al. teaches that it is old and well known in the art of machine tools to incorporate an acoustic microphone (48 and Column 6, lines 49-63) connected to a control unit (Fig. 2) that is capable of detecting snap-off of the work piece and in response, causes the control unit to generate a stop signal (Column 6, lines 49-52).

It would have been obvious to one of ordinary skill in the art, at the time the invention was made, to provide with Winn, Jr. with an acoustic microphone detector, as taught by Miller et al., to notify an operator of an uncut item thereby preventing a jam.

Response to Arguments

3. Applicant's arguments with respect to claims 1-4 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. McLuskie et al., Szostak et al., Blaker et al., Kern et al., Kazama et al., and Song.

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
